Dear Mark,

Good piece.

Can you carry the "Odio" part farther?

Could you make out or learn the date on the 9/24 claim, what the stamp actually says of the time?

Do you know how Oswald knew of Twiford?

I heard from someone on the paper down there. They were checking a report attributed to Lane, something that on the face did not seem credible. I presume if they got confirmation it was in the paper.

Downing had some kind of presentation a week or so ago. It received no attention. I suppose there is or will be an extension of remarks.

Rick phoned me in advance and then did other than I recommended.

I think Downing has further plans but I'm not privy. I've loaned Floyd some things he is to use in some kind of presentation.

Hope school is going well.

Best regards,
